- Ensured sufficient contrast .
- Set a minimum line height of 1.5 for long body text.
- Used a 12-column grid for desktop layouts.
- Used only regular and bold font weights.
- Applied a single brand colour only to interactive elements.
- Showed the interaction states for interactive elements (e.g., hover, active).
- Used left-aligned text for better readability.

HELLO

# I'm Ruhama a Software Engineering Student.

Welcome to my web developer portfolio! I'm Ruhama, a third-year Software Engineering student at Addis Ababa University with a deep interest in technology and a passion for learning. Currently, I'm building my skills in various tech areas, including software development and problem-solving, and I'm excited to start my journey in creating impactful projects. This portfolio will grow as I gain hands-on experience and work on

# About Me

Hello! I'm Ruhama, a third-year Software Engineering student at Addis Ababa University. My journey into technology began at high school when I was fascinated by how software shapes our world.

## Background

I am a passionate learner of software engineering who feels devoted to creating innovative ideas. As I am pursuing a degree in Software Engineering at Addis Ababa University, I've been improving my abilities in database administration, web development, programming, data structures, and algorithms, among other areas. In a variety of classes, I have finished a number of projects both independently and in groups.

## Hobbies and Interests

Outside of tech, I enjoy reading, exploring new places, and spending time with family. I believe that balance is essential, and these activities help fuel my creativity and inspiration.
